We were witness to the greatest adventure in history

As a bridge between three continents, Gran Canaria has been witness to the best adventure in History: the discovery of the New World. The inheritance as a crossroad for the traveller is reflected in the island character: open, cosmopolitan, and multicultural. Cities and villages display their over 500-year history through architecture of a colonial flavour and hundred year old traditions that highlight an unmistakeable Atlantic identity. Enrich your stay with a concert or a museum visit; just look up the Island's extensive cultural program.

Real fusion

Gran Canaria houses some treasures yet to be discovered by its visitors, held in the traditions of culture and lifestyle of its inhabitants. Among those is its cuisine, elaborated over centuries, using the finest raw materials to make original and tasty recipes. And don't forget that the local wines are of the finest quality, ideal accompaniment to any dish. These wines are included within the Denomination of Origin: "Monte Lentiscal" and "Gran Canaria". Taste the rich cuisine resulting from centuries of fusion.

There is only a 50 km radius between the golf courses in Gran Canaria.
